

Yearly, McDonald's® customers have donated over **\$48 MILLION** in spare change to RMHC® through Donation Boxes worldwide.

If each McDonald's restaurant collected the equivalent of 25 cents more per day, RMHC could provide almost **38,000 more overnight stays** for families with sick kids at a Ronald McDonald House®.

These donations, along with others RMHC receives, allow our organization to serve over **5.5 million children and families** a year through family-centered programs in over **64 countries and regions**.

More than **364** Ronald McDonald House® Programs

More than **214** Ronald McDonald Family Room® Programs

More than **49** Ronald McDonald Care Mobile® Programs

Donations can help give children a **place to play** after a long day at the hospital; parents a home for a **good night's sleep and warm meal**, near the hospital; and families **relief from the financial and emotional burdens** of travelling for their child's medical care.
